

# How does Spray-Lock Technology Save You Time?

*In the construction industry, time is money. Spray-Lock developed a superior technology to help you install and finish faster.*

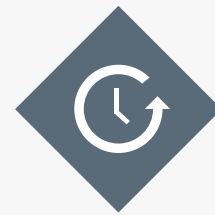

## Easier Application

- Allows quick application and keeps installers off their knees
- Can be applied in larger areas
- Makes repairs easier – flooring can be replaced without reapplying adhesive

## Immediate Access

- Provides instant shear strength
- Allows floors to be accessed by all traffic immediately, including heavy rolling loads
- Enables floors to be waxed and polished immediately

## Faster Installation

- Work in occupied spaces without HVAC shut down
- Permits sheet vinyl to be heat welded in just one hour after install
- Keeps projects on schedule

Time

**Spray-Lock  
Flooring Adhesive**

**Traditional  
Trowel Adhesive**

**Epoxy/Urethane  
Trowel Adhesive**

	<b>Spray-Lock Flooring Adhesive</b>	<b>Traditional Trowel Adhesive</b>	<b>Epoxy/Urethane Trowel Adhesive</b>
<b>Set-Up Time</b>	<b>10 - 20 minutes</b>	30 - 60 minutes	0 - 10 minutes
<b>Working Time</b>	<b>2 - 4 hours</b>	30 minutes - 2 hours	30 - 60 minutes
<b>Occupancy Time</b>	<b>Immediate access for light and heavy traffic</b>	24 hours for light traffic 72 hours for heavy traffic	12 hours for light traffic 24 - 72 hours for heavy traffic
